

## AtriCure Reports First Quarter 2019 Financial Results

April 25, 2019

- Worldwide revenue of \$54.0 million – an increase of 14.8% year over year
- U.S. revenue of \$43.0 million – an increase of 11.9% year over year
- International revenue of \$11.0 million – an increase of 28.1% year over year

MASON, Ohio--(BUSINESS WIRE)--Apr. 25, 2019-- [AtriCure, Inc. \(Nasdaq: ATRC\)](#), a leading innovator in treatments for atrial fibrillation (Afib) and left atrial appendage (LAA) management, today announced first quarter 2019 financial results.

"We had a good start to the year fueled by solid performance across our business in the first quarter," said Mike Carrel, President and Chief Executive Officer of AtriCure. "With outstanding Appendage Management performance, combined with the cryoSPHERE™ probe launch for peripheral nerve block, and the vast under-penetration of concomitant ablation in all types of major cardiac surgery, we remain confident that we are well positioned for consistently strong performance."

### **First Quarter 2019 Financial Results**

Revenue for the first quarter of 2019 was \$54.0 million, an increase of \$7.0 million or 14.8% (16.0% on a constant currency basis), compared to first quarter 2018 revenue. U.S. revenue increased 11.9% to \$43.0 million, driven by increased sales of ablation-related open-heart products and appendage management products. International revenue was \$11.0 million, an increase of \$2.4 million or 28.1% (an increase of 34.4% on a constant currency basis), compared to first quarter 2018 revenue, driven primarily by an increase in Asia and certain European markets. A discussion of non-GAAP financial measures and reconciliations regarding non-GAAP financial measures to their respective GAAP financial measures are provided later in this release.

Gross profit for the first quarter of 2019 was \$40.0 million compared to \$34.5 million for the first quarter of 2018. Gross margin for the first quarter of 2019 increased to 73.9% compared to 73.4% in the first quarter of 2018, driven primarily by improvements to operations and lower costs.

Loss from operations for the first quarter of 2019 was \$5.3 million, compared to \$9.4 million for the first quarter of 2018. Net loss per share was \$0.15 for the first quarter of 2019 compared to \$0.31 for the first quarter of 2018.

Adjusted EBITDA was a loss of \$0.6 million for the first quarter of 2019 and \$3.3 million for the first quarter of 2018. Adjusted loss per share for Q1 2019 was \$0.20 compared to an adjusted loss per share of \$0.31 for 2018. Adjusted EBITDA and adjusted loss per share are non-GAAP measures.

### **2019 Financial Guidance**

Management is updating revenue guidance for 2019 to a range of \$222 million to \$228 million, corresponding to growth of 10% to 13% for the year, and maintaining expectations for positive full-year adjusted EBITDA between \$0 and \$3 million.

### **Conference Call**

AtriCure will host a conference call at 4:30 p.m. Eastern Time on Thursday, April 25, 2019 to discuss its first quarter 2019 financial results. The call may be accessed through an operator by calling (844) 884-9951 for domestic callers and (661) 378-9661 for international callers using conference ID number 4590275. A live audio webcast of the presentation may be accessed by visiting the Investors page of AtriCure's corporate website at [ir.atricure.com](#). A replay of the presentation will be available for 90 days following the presentation.

### **About AtriCure**

AtriCure, Inc. provides innovative technologies for the treatment of Afib and related conditions. Afib affects more than 33 million people worldwide. Electrophysiologists and cardiothoracic surgeons around the globe use AtriCure technologies for the treatment of Afib and reduction of Afib related complications. AtriCure's Isolator® Synergy™ Ablation System is the first and only medical device to receive FDA approval for the treatment of persistent Afib. AtriCure's AtriClip Left Atrial Appendage Exclusion System products are the most widely sold LAA management devices worldwide. For more information, visit [AtriCure.com](#) or follow us on Twitter [@AtriCure](#).

### **Forward-Looking Statements**

This press release contains "forward-looking statements" – that is, statements related to future events that by their nature address matters that are uncertain. For details on the uncertainties that may cause our actual results to be materially different than those expressed in our forward-looking statements, visit <http://www.atricure.com/fls> as well as our Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q which contain risk factors. We do not undertake to update our forward-looking statements. This document also includes forward-looking projected financial information that is based on current estimates and forecasts. Actual results could differ materially.

### **Use of Non-GAAP Financial Measures**

To supplement AtriCure's condensed consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, AtriCure uses certain non-GAAP financial measures in this release as supplemental financial metrics.

Revenue reported on a constant currency basis is a non-GAAP measure and is calculated by applying previous period foreign currency exchange rates, which are determined by the average daily Euro to Dollar exchange rate, to each of the comparable periods. Management analyzes revenue on

a constant currency basis to better measure the comparability of results between periods. Because changes in foreign currency exchange rates have a non-operating impact on revenue, the Company believes that evaluating growth in revenue on a constant currency basis provides an additional and meaningful assessment of revenue to both management and the company's investors.

Adjusted EBITDA provides an indication of performance excluding certain items. Management believes that in order to properly understand short-term and long-term financial trends, investors may wish to consider the impact of these excluded items in addition to GAAP measures. The excluded items vary in frequency and/or impact on our continuing operations and management believes that the excluded items are typically not reflective of our ongoing core business operations. Further, management uses adjusted EBITDA for its strategic planning. A reconciliation of adjusted EBITDA reported in this release to the most comparable GAAP measure for the respective periods can be found in a table later in this release.

Adjusted loss per share is a non-GAAP measure which calculates the net loss per share before non-cash adjustments to expenses related to the adjustment in value of contingent consideration liability. Management believes this metric provides a better measure of comparability of results between periods, as such adjustments are not frequent in nature or similar in value and can be significant. A reconciliation of adjusted loss per share reported in this release to the most comparable GAAP measure for the respective periods can be found in a table later in this release.

The non-GAAP financial measures used by AtriCure may not be the same or calculated the same as those used by other companies. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for AtriCure's financial results prepared and reported in accordance with GAAP.
